Volume 43 **Nutrition Reviews** Number 12
December 1985

Editor
Robert E. Olson, M.D., Ph.D.
Professor of Medicine and Professor of Pharmacological Sciences
School of Medicine, State University of New York at Stony Brook

Associate Editor
Harry P. Broquist, Ph.D.
Vanderbilt University
School of Medicine

Assistant Editor
Nellys Bard

Production Manager
Karen A. Taylor

Contributing Editors

Lindsay H. Allen, Ph.D., R.D.
University of Connecticut

Ann Ashworth, Ph.D.
London School of Hygiene and Tropical Medicine

Richard L. Atkinson, M.D.
University of California, Davis

David H. Baker, Ph.D.
University of Illinois

Mahtab S. Bamji, Ph.D.
National Institute of Nutrition, India

Peggy Borum, Ph.D.
University of Florida

G.E. Bunce, Ph.D.
Virginia Polytechnic Institute and State University

R.K. Chandra, M.D.
Memorial University of Newfoundland

Halvor N. Christensen, Ph.D.
University of Michigan

Neville Colman, M.D., Ph.D.
Bronx V.A. Medical Center

G.F.Combs, Jr., Ph.D.
Cornell University

John G. Coniglio, Ph.D.
Vanderbilt University School of Medicine

William E. Connor, M.D.
Oregon Health Sciences University

Edward D. Harris, Ph.D.
Texas A & M University

John Hathcock, Ph.D.
Iowa State University

Robert G. Jensen, Ph.D.
University of Connecticut

Reynaldo Martorell, Ph.D.
Stanford University

Donald B. McCormick, Ph.D.
Emory University School of Medicine

Anthony Norman, Ph.D.
University of California, Riverside

Boyd L. O'Dell, Ph.D.
University of Missouri

Daniel Rudman, M.D.
V.A. Medical Center, Chicago

Robert Russell, M.D.
Tufts University

Barbara O. Schneeman, Ph.D.
University of California, Davis

Robert E. Shank, M.D.
Washington University School of Medicine

James H. Shaw, Ph.D.
Harvard School of Dental Medicine

Artemis P. Simopoulos, M.D.
National Institutes of Health

Roger Sunde, Ph.D.
University of Arizona

Mary Ann Williams, Ph.D.
University of California, Berkeley

Christine Wilson, Ph.D.
University of California, San Francisco

George Wolf, D. Phil.
Massachusetts Institute of Technology

Editorial Office: Health Sciences Center, Level 2, Room 167, State University of New York at Stony Brook, Stony Brook, NY 11794.

Nutrition Reviews (ISSN 0029-6643) is published monthly by the Nutrition Foundation, 1126 Sixteenth St., N.W., Suite 111, Washington, DC 20036.

Subscriptions, Correspondence or Change of Address: Send to Nutrition Reviews, 1126 Sixteenth Street, N.W., Suite 111, Washington, DC 20036. Second class postage paid at Washington, DC.

Subscription Rates: U.S., Canada and Mexico: Individuals $28 per year; institutions $39 per year; students $14 per year. Other countries (surface mail): Individuals $33 per year; institutions $44 per year; students $19 per year. Back issues $4 per copy (when available).

A limited number of reprints are available from the authors of signed articles. THERE ARE NO REPRINTS OF UNSIGNED REVIEWS.

Contents of Volume 43

NO. 1, JANUARY 1985

Nutrient Deficiencies during Total Parenteral Nutrition, by Daniel Rudman, M.D. and Patricia Jo Williams, R.D., M.N.S. 1
Development of Essential Fatty Acid Deficiency in the Premature Infant Given Fat-Free TPN 14
Pulmonary Fat Accumulation after Parenteral Fat Emulsion: Real or Artifactual? 15
Fuel Mixtures for Critically Ill Patients Given Total Parenteral Nutrition 17
Supplementation of Total Parenteral Nutrition Solutions with Ferrous Citrate 20
An Unusual Presentation of Human Carnitine Deficiency 23
"Experimental and Clinical Studies with Fat Emulsion for Intravenous Nutrition": D. Hallberg, O. Schuberth and A. Wretlind 26
Rapid Movement of Lipoprotein Lipase among Substrate Globules 29
Characteristics of Dicarboxylic Amino Acid Transport by Rabbit Intestinal Brush-Border Membrane Vesicles 30

NO. 2, FEBRUARY 1985

Health Implications of Overweight and Obesity, by Artemis P. Simopoulos, M.D. 33
Alterations in Metabolic Rate after Weight Loss in Obese Humans 41
Body Weight and Serum Cholesterol 43
Male Pattern Obesity as a Risk Predictor for Coronary Heart Disease, Stroke and Death 44
Starch Blockers Do Not Block Starch Digestion 46
Myocardial Infarction in a Young Obese Male 49
"Ideal Weights for Women": Louis Dublin 52
α-Tocopherol Influences Tissue Levels of Vitamin A and Its Esters 55
Transferrin and Its Cellular Receptor Underscore the Importance of Iron in Cell Growth 56
An Unsettled Question: When and Where are Branched-Chain Amino Acids Used as Fuel? 59
Body Weight, Health and Longevity: Conclusions and Recommendations of the Workshop 61
Nutrition Foundation and International Life Sciences Institute Join 64

NO. 3, MARCH 1985

Taurine Requirements in Primates, by K.C. Hayes, D.V.M., Ph.D. 65
Drug Metabolism and Disposition at Varying Levels of Protein and Calories in Human Subjects 71
The Leaky Gut of Alcoholism 72
Changes in Plasma Lipoproteins Due to Alcohol Consumption 74
The Enterohepatic Circulation of Vitamin D Is Negligible 76
The Vitamin D Status of the Elderly 78
Taurine Deficiency in a Child on Total Parenteral Nutrition 81
"Retinal Degeneration Associated with Taurine Deficiency in the Cat": K.C. Hayes, R.E. Carey and S.Y. Schmidt 84
Characterization of Hepatic Monoacylglycerol Acyltransferase from the Suckling Rat 87
Advances in the Biotechnology of Lysine Production 88
Triacylglycerol and Cholesteryl Ester Transfer Protein 90
Metallothionein Induction by Ethanol 92
Letter to the Editor 95
Meeting Announcements 96
Recent Books 96
Correction 96

NO. 4, APRIL 1985

Cellular Uptake of Cobalamin, by Bellur Seetharam, Ph.D. and David H. Alpers, M.D. 97
Deferoxamine Therapy of Bone Aluminum Accumulation in Renal Dialysis Patients 103
Megavitamins and the Hyperactive Child 105
Is Protein-Calorie Malnutrition a Problem in Alcoholic Hepatitis? 108
How Much Energy Does a Pregnant Woman Need? 110
"Familial Vitamin B_{12}-Binding Proteins Using Affinity Chromatography": Robert H. Allen and Philip W. Majerus 114
Newly Found Roles for Copper 117
Intestinal Ornithine Synthesis from Glutamic Acid 119
Interactions of Dietary Iron and Zinc in the Chick 121
Protein Digestion and Absorption after Intestinal Resection in Rats 122
Hepatic Fat and Alcoholic Cirrhosis 124
Letters to the Editor 126
Recent Books 128

NO. 5, MAY 1985

Zinc: Essentiality for Brain Development and Function, by Harold H. Sandstead, M.D. 129
Dietary Carbohydrate Intake and Catecholamine Secretion in Man 138
Role of Fluoride and Silicon in Urinary Calculi Disease 140
Megadose Zinc Intakes Impair Immune Responses 141
Does Malnutrition Predispose Children to Diarrhea? 144
Ascorbic Acid Does Not Cure Cancer 146
Copper Deficiency Induced by Megadoses of Zinc 148
"Carbonic Anhydrase. Purification and Nature of the Enzyme": D. Keilin and T. Mann 150
Retinoic Acid Induces Transglutaminase in Mouse Macrophages 153
Neosugar—A Fructooligosaccharide Nonnutritive Sweetner 155
Dietary D-Tyrosine as an Antimetabolite in Mice 156
Zinc Deficiency Impairs Ethanol Metabolism 158
Meeting Announcements 160

NO. 6, JUNE 1985

Intracellular Receptors Mediate the Biologic Action of 1,25-Dihydroxyvitamin D_3, by J. Wesley Pike, Ph.D 161
Gastroenteritis Caused by *Escherichia coli* and *Shigella* Retards the Growth of Children 169
Calcim and Vitamin D Intakes Influence the Risk of Bowel Cancer in Men 170
Breast Feeding and Child Development at Five Years 173
Insulin Binding to Erythrocytes as a Function of Energy Status 174
Should Dietary Treatment of Phenylketonuria Be Continued after Infancy? 176
Altered Receptors for 1,25-Dihydroxycholecalciferol in Vitamin D-Dependent Rickets 178
"Chromosomal Receptor for a Vitamin D Metabolite": M.R. Haussler and A.W. Norman 181
Cimetidine Inhibits the Hepatic Hydroxylation of Vitamin D 184
Carnitine Synthesis in Scorbutic Guinea Pigs 185
Adverse Effects of Orally Administered Tin 187
Decrease in Collagen Synthesis Due to Fasting 190
Nutrition Notes 192

NO. 7, JULY 1985

Regulation of Iron Assimilation in Microorganisms, by J.B. Neilands, Ph.D. and Kayoko Nakamura, Ph.D. 193
Hypomagnesemia Associated with Other Electrolyte Imbalances 198
Glucose Polymers Enhance the Intestinal Absorption of Calcium 200
The Calciuretic Response to Cyclic versus Continuous Total Parenteral Nutrition 201
Infant Feeding Practices in India 204

Iron Overload Associated with Hemoglobin Olympia 206
"The Iron-Binding Protein of Swine Serum": C.B. Laurell and B. Ingelman 209
Regulation of Mucosal Enzymes by Their Dietary Substrates 212
Aortal Abnormalities in Marginal Copper Deficit 213
A New Pathway for Conversion of Glucose to Glycogen Is Confirmed 215
Role of Pyridoxal-5'-Phosphate in Vitamin K-Dependent Carboxylation 218
Maternal Iron Deficiency Affects Carnitine Metabolism in Rat Pups 220
Letter to the Editor 223

NO. 8, AUGUST 1985

Vitamin A-Binding Proteins, by David E. Ong, Ph.D. 225
Gastrointestinal Permeability in Food-Allergic Children 233
Diarrhea and Malabsorption Associated with the Acquired Immunodeficiency Syndrome 235
Riboflavin Requirements of Women and Children in the Third World 237
Vitamin A Deficiency—A Global Disease 240
"Vitamin A in Eye Tissues": George Wald 244
Effect of Vitamin A Status on Retinoid-Binding Protein Levels in Rat Tissues 247
Excretion of Vitamin A Metabolites in the Bile 250
Fumaric Acid: A New Feed Additive for Pigs 253
Vitamin D Hormone Regulates *myc*-Oncogene Expression In Tissue Culture 254
Announcement 256

NO. 9, SEPTEMBER 1985

Strategies for Preventing Coronary Heart Disease, by Michael F. Oliver, M.D., F.R.C.P 257
Influence of Eggs on Plasma Lipoproteins 263
Regulation of Plasma Cholesterol by Compactin and Mevinolin 266
Reduction of Plasma Lipids and Lipoproteins by Marine Fish Oils 268
Mortality from Coronary Heart Disease is Inversely Related to Fish Consumption in the Netherlands 271
Heart-Liver Transplantation in a Child with Homozygous Familial Hypercholesterolemia 274
"Familial Hypercholesterolemia: Defective Binding of Lipoproteins to Cultured Fibroblasts": Michael S. Brown and Joseph L. Goldstein 279
Lowering Blood Cholesterol to Prevent Heart Disease 283
Nutrition Notes 291

NO. 10, OCTOBER 1985

Folate-Binding Proteins, by Conrad Wagner, Ph.D. 293
Parathyroid Hormone, 1,25-Dihydroxyvitamin D_3 and Calcitonin in Women Breast-feeding Twins 300
Dietary Fish Oil Increases ω-3 Long-Chain Polyunsaturated Fatty Acids in Human Milk 302
Late Onset of Hemorrhagic Disease in the Newborn 303
Regulation of Bacterial Adherence to Respiratory Epithelial Cells 305
Hereditary Dihydrofolate Reductase Deficiency with Megaloblastic Anemia 309
"The Folate Binding in Milk": Jacobo Ghitis and Cristina Lora 312
Na^+-Induced Conformational Changes in Intestinal Glucose and Amino Acid Transporters 315
Yeast Copperthionein: Function and Regulation 317
Retinoic Acid Regulates 1,25-Dihydroxyvitamin D_3-Binding Sites in Rat Osteosarcoma Cells 320
Insulin Is the Primary Regulator of Glycogen Synthesis in Cultured Liver Cells 321
Nutrition Notes 324

NO. 11, NOVEMBER 1985

Can Dietary Selenium Modify Cancer Risk?, by Gerald F. Combs, Jr., Ph.D. and Larry C. Clark, Ph.D. 325
The Winged Bean: Promise or Problem? 332
Impact of Malnutrition on Small Intestinal Repair After Acute Viral Enteritis 335
Salt-Free Salt 337

Selenium Deficiency in a Woman Given Total Parenteral Nutrition 339
"Relationship of Selenium to Cancer": Raymond J. Shamberger 342
Calcium: How Much is Too Much? 345
Role of the Liver in Diet-induced Thermogenesis 347
Fatty Acid-Binding Protein in Heart Energy Production 348
Fatty Acid-Binding Proteins from Liver and Intestine 350
Zinc Deprivation in Pregnant Monkeys 353
Nutrition Notes 356

NO. 12, DECEMBER 1985

1985 W.O. Atwater Memorial Lecture:
Nutrition: The Changing Scene, by D.M. Hegsted, Ph.D. 357
Author Index 368
Subject Index 388
